Vinyl-lam "PVC" film bonded to 1/4 inch MDF core, is representative of color and shades. Minor variations may occur between color chips and the delivered product. For solid color custom matches, a custom service is available. Contact our office for more information. The manufacturer reserves the right to change selections or specifications at any time without notice.

\*Light Oak vinyl and Chalk vinyl, as shown above, available with Class 1 Fire Core.

All Woodfold finishing processes are environmentally safe.
